

CrowdHEALTH

Project Presentation

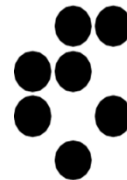

*Lydia Montandon
Project Coordinator*

What is CrowdHEALTH?

- CrowdHEALTH is a multidisciplinary international project partially funded by the Horizon 2020 Programme of the European Commission
- March 2017-April 2020
- The project will deliver a **secure ICT platform** to incorporate the collective knowledge **about health** that emerges from multiple information sources: sensors, hospital records, social networks...
- Currently collected data are heterogeneous and difficult to integrate, and privacy of data must be kept.

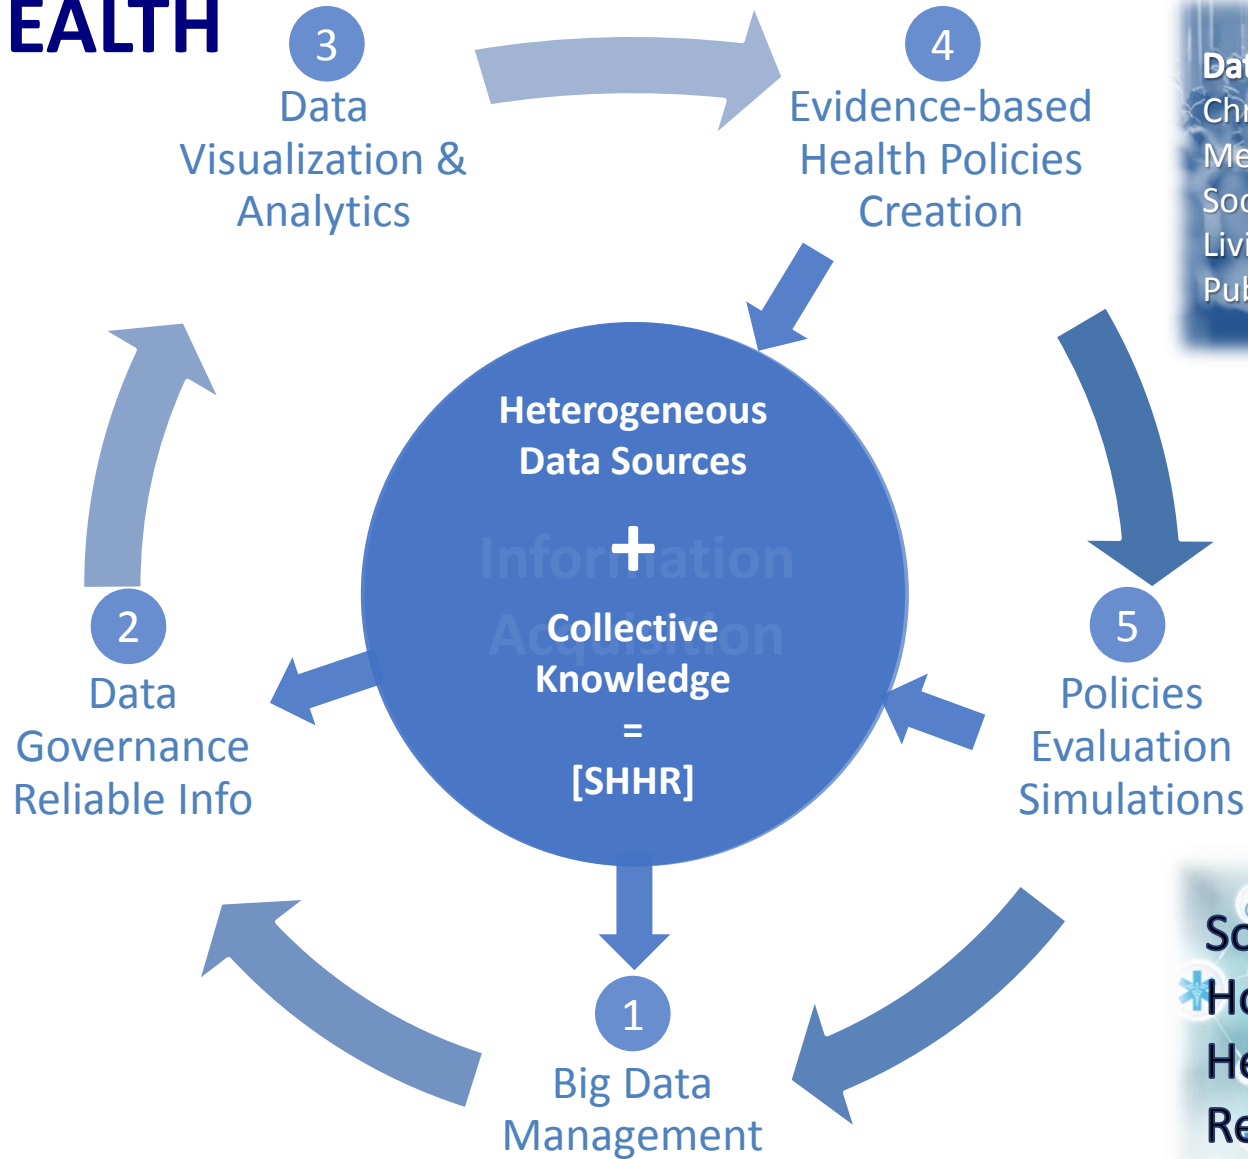

Who participates in CrowdHEALTH?

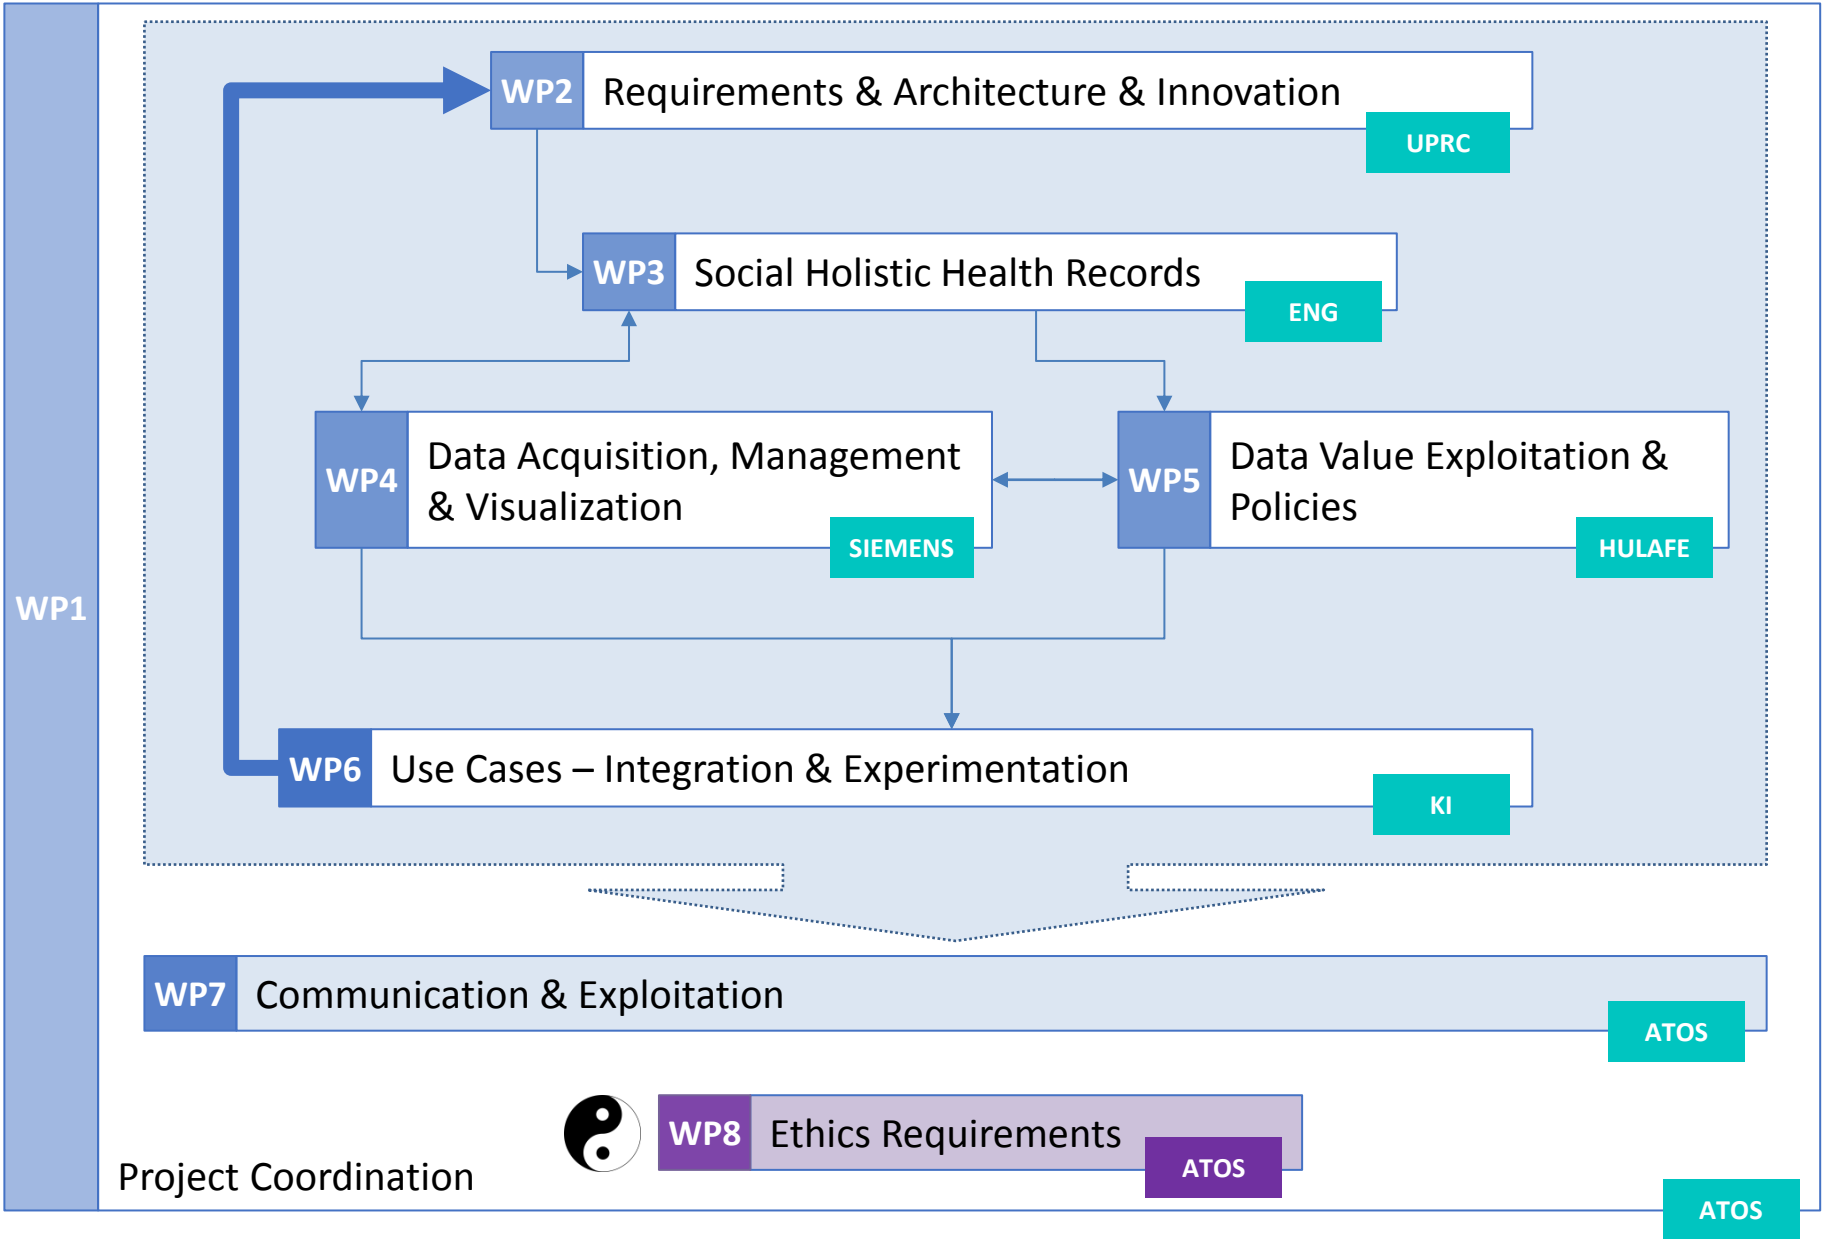

Jožef Stefan Institute

CrowdHEALTH in short
